Press Release #08102

Steele Rubber Products Announces

Lincoln Mark V Weatherstrip Products

Steele Rubber Products Inc. announces a new line of quality restoration parts for Lincoln Mark V's. New parts include hardtop roof rail seals, door weatherstrips, hood-to-cowl seals, quarter window seals, lock pillar fillers, trunk weatherstrips, and various hood and door bumpers. The door and roof rail seals have fully molded ends to protect against the weather and noise. The lock pillar filler uses a brass backing plate to prevent corrosion and promote durability. These seals have an authentic look and are made with heat and ozone-resistant rubber compounds. Close attention to detail ensures the highest quality fit and appearance. Parts for Lincoln Mark V's can be purchased individually or as kits. Steele stands behind all products by offering a money-back guarantee if a customer is not completely satisfied.
